# OIL & GAS SOLUTIONS

**WE ARE YOUR TOTAL OIL & GAS SOLUTION**

State Electric Supply Co. provides a complete product and service offering for applications in all segments of the Oil and Gas Industry. From the wellhead to compressor stations to downstream facilities, State Electric can assist with small, and large-scale projects. Our products, product lines, and services can fit your specific customer need.

Our Oil and Gas market offers several product categories such as jobsite trailers, grounding and bonding products, fuses, hand tools, wire, safety equipment, and more. Each product has options that will work for your Oil and Gas needs. ACSR wire sizes range from 2 AWG to 795 AWG and power fuses up to 69KV. We also provide accessories to your fuses, wires, and generators serving your oil and gas project from start to finish.

## Oil & Gas Solutions

### MOBILE JOBSITE

Jobsite trailers are stocked to the customers' exact specifications and can be transported to almost any site, saving time on transportation and labor costs.

### STAGING MATERIAL

We will keep all the inventory in one of our warehouses until the customer needs it. Then we will deliver it to your location, free of charge.

### QUALITY PRODUCT LINES

The quality and variety of our Oil & Gas product lines is unmatched. Rockwell Automation, Eaton, and Eaton Crouse-Hinds are just a few of the brands we offer.

### WIRE SOLUTIONS

We offer a wide array of wiring products from wire itself to connectors, conduit, accessories, and wire protection.

### QUICK ORDER

We have inventory on hand locally, which means you can look to State Electric if you need an item quickly.

### OIL & GAS SPECIALISTS

Our greatest asset is our staff – we have experts in the oil and gas market that can assist you with your orders and answer any questions.

### NO MINIMUM ORDER

Buy exactly what you need with no minimum order required for purchase.

Crouse-Hinds series

## CASE STUDY

### Compressor Station

**End User:** CPG, EQT, CNX

**Location:** Appalachian Basin Marcellus & Utica Shale Play

Whether it's modernization of existing stations or construction of new stations, State Electric works closely with various midstream companies and their contractors to ensure the modernization of existing facilities or construction of new facilities run smoothly. Updating these antiquated systems can be challenging, but we help with every aspect of both large and small-scale projects, from concept until completion.

We offer transport and staging of material using our PROSolutions trailers, and utilize the inventory from all locations to ensure you have the material you need when and where you need it.

*All lines listed may not be available at all locations.  
Lines are subject to change and additional lines may be available.*
